

WHEN YOU'VE GOT MORE IMPORTANT THINGS TO DO WITH YOUR HANDS

CRS latest innovation is the **Wireless PTT adaptor**. When you need your hands free but still need to talk, the wireless PTT button is the key.

It can wrap around your finger, or be attached to the handlebars of your motorcycle etc. **So no more having to reach for your radio to answer a call, you simply PUSH TO TALK.**

- Connects to all popular brands
- Zero interferences
- Wireless PTT is suitable for any occupation/application where it's best your hands are free or you don't want to be seen using your two way, such as riding a motorbike or covert surveillance.

Another quality product from CRS Accessories
